Hello Auxiliary Americanism Program Chair-

I am honored to be your Department Chair for Americanism. I joined the VFW Auxiliary through the service of my husband that served our country for 42 years and two tours in Iraq. His military service definitely shaped my pride and understanding of the individuals that strive to be Americas front protectors here and abroad. As a member of the Lemmon Auxiliary #2969 I have discovered how valuable it is to share knowledge regarding America's traditions, symbols, rituals, and history. Even in small rural America, people become so accustomed to freedoms they tend to take for granted our American life is ensured forever. Sadly, not true! Thus, the value of teaching and promoting Americanism is an extremely valuable life-long goal of mine. I am a retired educator that continues to use my skills towards the Americanism Program goals. You too have special skills and talents that can assist you this year!

Thank you for sharing your leadership as the 2024-2025 Americanism Chair during the upcoming auxiliary year. Would enjoy reading a glimpse about yourself and your reason for accepting the Americanism Program Chairmanship for this year. E-mail me: tlhuber79@gmail.com
